

# Imagine ditches XP/Vista and launches Computing Made Easy

**The UK's fastest-growing consumer specialist publisher re-launches Windows XP Made Easy as Computing Made Easy.**

Imagine Publishing is pleased to announce the re-launch of the long-running home computing magazine, on sale 18 October. From issue 118, *Windows XP Made Easy* appears on the shelves as *Computing Made Easy*, a fresh new title aimed at demystifying and explaining home computing technology in all its forms – hardware and software.

Whether it's an operating system, websites, digital photography, office software or cutting-edge hardware, *Computing Made Easy* provides informative features and in-depth tutorials on mastering the latest techniques and technology quickly and easily.

Each issue of *Computing Made Easy* provides in-depth features on breaking technology trends, backed up with detailed step-by-step tutorials that allow readers to master even advanced home-computing techniques regardless of skill level. The unique and fully illustrated 'how-it-works' guides explain the latest consumer technology and PC hardware in a visual, easy-to-understand way. A comprehensive hardware section offers both expert reviews and group tests on new PC kit and peripherals.

Dave Harfield, Editor in Chief said: "We're excited by this move away from a Windows-centric approach that allows us to cover more exciting areas of home technology. The magazine's unique approach to PCs, the internet, entertainment and hardware, coupled with its unbiased voice makes *Computing Made Easy* the best choice for today's home PC enthusiast."

Imagine Publishing is one of the UK's fastest growing consumer specialist publishers. Formed in May 2005, it now publishes 20 magazines and 20 websites in the videogames, computing, entertainment and photography markets. An Imagine magazine is purchased every ten seconds.
